

SCIENTIFIC PROGRAMME

Wednesday, June 9

ROOM 3 (SPEKTRUM)

10:30 - 12:00 Free papers: Shoulder I - continued

11:30 - 11:35	Ultrasound guided percutaneous tenotomy of the long head of biceps brachii: results of a cadaveric study <i>FP11-1046 Sanghavi S. (United Kingdom), Gaudin P., Brasseur J., Hardy P.</i>
11:35 - 11:40	Analysis of evidence-based medicine for shoulder instability (rating scales) <i>FP11-60 Plancher K. (United States), Lipnick Sheryl</i>
11:40 - 11:45	Subscapularis muscle function following arthroscopic reconstruction of isolated subscapularis tendon tears <i>FP11-735 Bartl C. (Germany), Salzmann G., Seppel G., Eichhorn S., Holzapfel K., Wörtler K., Imhoff A.</i>
11:45 - 11:50	Prognostic factors affecting functional outcome after arthroscopic rotator cuff repair <i>FP11-1355 Tzanakakis N. (Greece), Mataragas E., Mouzopoulos G., Vassos C., Antonogiannakis E.</i>
11:50 - 12:00	Discussion

12:00 - 14:00 Lunch break and lunch workshops (see page 178/179)

14:00 - 15:30 Step by step improvement of arthroscopic treatment of antero-inferior shoulder instability. An ULC multicentric study Upper Limb Committee in collaboration with Annecy Live Surgery Chair: Cartucho Pereira A. (Portugal), Ludvigsen T. (Norway)

14:00 - 14:12	Postero inferior plication <i>SY11-2352 Cartucho Pereira A. (Portugal)</i>
14:12 - 14:24	Remplissage technique <i>SY11-2353 Calvo Diaz A. (Spain), Poberaj B.</i>
14:24 - 14:36	Bony Bankart reconstruction <i>SY11-2354 Sugaya H. (Japan)</i>
14:36 - 14:48	Bone block reconstruction <i>SY11-2355 Taverna E. (Italy)</i>
14:48 - 15:00	Arthroscopic Latarjet <i>SY11-2356 Lafosse L. (France)</i>

SCIENTIFIC PROGRAMME

Wednesday, June 9

ROOM 3 (SPEKTRUM)

15:00 - 15:15	Results presentation <i>SY11-2357 Gleyze P. (France), Cartucho Pereira A. (Portugal), Ludvigsen T. (Norway)</i>
---------------	--

15:15 - 15:30 Discussion

15:30 - 16:00 Coffee break – visit industrial exhibition

16:00 - 17:00 Poster Short Communication I Chair: Scheffler S. (Germany), Becker R. (Germany)

16:00 - 16:02	Radiographic assessment of the femoral tunnel entrance area prior to anterior cruciate ligament revision surgery <i>SCP10-378 Tscholl P. (Switzerland), Biedert R.</i>
16:02 - 16:04	Two to 15-year clinical results of anatomic reconstruction of the superficial layer of the medial collateral ligament using the semitendinosus tendon-hybrid graft <i>SCP10-166 Ogawa M. (Japan), Kitamura N., Kondo E., Kitayama S., Inagaki Y., Tohyama H., Tanaka Y., Yasuda K.</i>
16:04 - 16:06	Observations on measuring rotational laxity of the knee using a simple clinical device <i>SCP10-415 Alam M. (United Kingdom), Bull A., Thomas R., Amis A.</i>
16:06 - 16:08	Arthroscopical and radiological evaluations on intra-articular outlet location of tibial tunnels created with anatomic double-bundle anterior cruciate ligament reconstruction <i>SCP10-503 Kai S. (Japan), Kondo E., Tohyama H., Kitamura N., Kawaguchi Y., Yasuda K., Mizutani K.</i>
16:08 - 16:10	Discussion
16:10 - 16:12	Outcomes and risks of operative treatment of ruptures of the anterior cruciate ligament in children and adolescents. A systematic review and meta-analysis <i>SCP10-566 Frosch K. (Germany), Stengel D., Holsten D., Jung C., Voigt Christine, Niemeyer P., Maier M., Hertel P., Jagodzinski M., Lill H.</i>
16:12 - 16:14	The effect of autologous platelet factors on femoral tunnel widening after acl-reconstruction with hamstrings: a pilot study with MRI in 20 patients <i>SCP10-645 Mastrokalos D. (Greece), Staratzis K., Koulalis D., Lendi Anna</i>
16:14 - 16:16	Biomechanics of anatomic femoral tunnel versus over-the-top fixation in ACL reconstruction <i>SCP10-1019 Lertwanich P. (United States), Kato Y., Maeyama A., Martins C., Ingham Sheila, Kramer S., Linde-Rosen Monica, Smolinski P., Fu F.</i>
